# A guide to activate your Master Self!

I.

I ask the right  
questions, so you  
can find  
the right answers!

Try to answer to these simple questions in a simple, spontaneous and truthfull way. Let that inner Voice speak for you...

*Who are you?*

---

---

*What are your super-powers?*

---

---

*What makes You unique?*

---

---

**II.**

**From now to the  
next year  
You envision a  
different, upgraded  
version of  
Your-Self!**

When we live in the past, we forget to be present and we cannot build a future that can be what we really wish and need. Getting to know yourself will also help you to envision a better future and make it happen in every moment.

*How this future Self looks like?*

---

---

*What do you wish to create in your life to make you feel happier and healthier?*

---

---

*How can you achieve an enhanced feeling of Self-Worth and Value?*

---

---

**III.**  
**You know there is**  
**something special**  
**about your**  
**Inner Voice and**  
**its Power!**

We are all born with a Gut feeling...but often trauma and wounds are making us doubt of ourselves and we keep small, fearful and ashamed to express our true Voice. You have a beautiful, unique song to sing in this lifetime...reclaim your Voice so you can make your Heart sing it with delight and shine!

*When and what helps you listen to your Inner Voice?*

---

---

*Who could help you gain more confidence and authenticity in expressing this Inner Voice?*

---

---

*If your Voice would sing the Song of your Heart (and Womb), how would you name it?*

---

---

**IV.**  
**Your Body is a**  
**sacred Temple**  
**where you can build**  
**and cherish your**  
**Tree of Life!**

All traumas and hidden negative patterns are trapped in the body and only manifest when we are overwhelmed, triggered, pushed to an extreme, worned out. Giving space and time to your Body to just be, feel and enjoy every moment of the embodied presence is the key towards a more healthy, happy and fulfilled life.

*When do you feel more embodied, energized and creative?*

---

---

*What is your Magic body-fuel that gives you drive, juice and passion in life?*

---

---

*How often do you pause and listen to the messages that your Body sends to you?*

---

---

V.  
Your Master-Self  
is ready  
to embrace You  
fully!

Mastering yourself is a process and a path of self-discovery, healing and growth. And it happens when you start to trust yourself and to appreciate every aspect of you and every lesson you got from life. So you can understand that every progress and manifestation starts inside...

*What are the lessons of Life that you cherish most as a step forward on your path towards Mastery?*

---

---

*What are the main ingredients of you personalized formula for success, visibility and impact?*

---

---

*What makes you feel aligned to your Purpose, as an expression of your Inner Voice and Manifestation power?*

---

## **About Myself:**

*I am a daughter, sister, womb-carrier and mother of a special kid. I have a background in science and research for cultural heritage, but by vocation I am an educator and storyteller.*

*Since 2016 I have been walking the path of the Priestess, exploring the realm of the Womb and its connection with the Heart. I thus have created an international profile as medicine woman, Priestess of Mary Magdalene legacy, space holder, mentor, sound and womb therapist.*

*Despite my long-term experience as mentor and counselor and the multifaceted profile, I have a pure Heart and a childish curiosity and wish to explore life and my own inner landscape. My purpose includes guiding others to find the path towards their Master Self and embrace it fully!*
